

# How to install the scroll:bit library

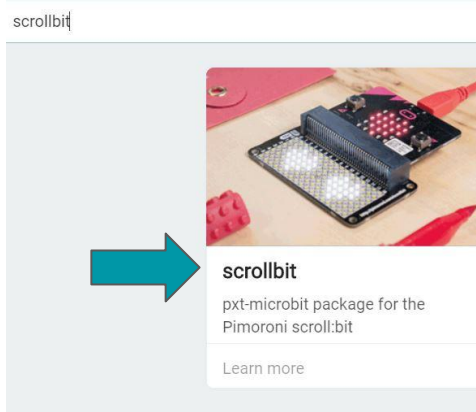

1. Go to MakeCode and click on the Advanced part of the menu.

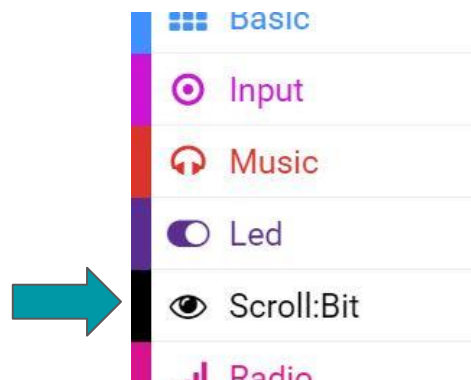

2. Choose "Extensions" from the menu.

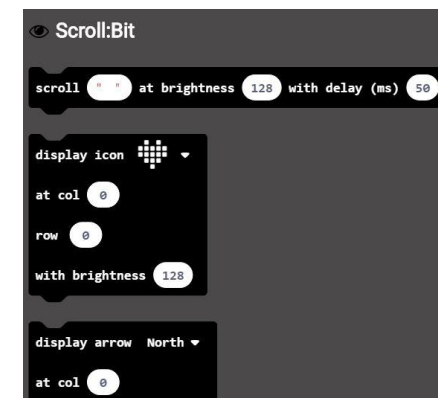

3. In the pop-up that appears, type in the name of the board, which is **scrollbit**.

4. Pick your package from the results.

5. After a few seconds, you should see your new package in the menu.

6. Have a browse at the commands. Enjoy!
